

THE BEASTS OF ELECTRA DRIVE

Rohan Quine

From Hollywood Hills mansions and Century City towers, to South Central motels and the oceanside refinery, *The Beasts of Electra Drive* spans a mythic L.A., following seven spectacular characters (or Beasts) from games designer Jaymi's game-worlds. The intensity of those Beasts' creation cycles leads to their release into real life in seemingly human forms, and to their combative protection of him from destructive rivals at mainstream company Bang Dead Games. A prequel to Quine's other five tales (and a Finalist in the IAN Book of the Year Awards 2018), this is a unique explosion of glamour and beauty, horror and enchantment, celebrating the mechanisms and magic of creativity itself.

REVIEWS (see www.rohanquine.com/press-media/the-beasts-of-electra-drive-reviews-media/ for more reviews)

"the book has an important message to tell about what it is to be truly human. [...] the novel works exceptionally well for its creative use of tech, mixed in with a group of highly imaginative characters. A prequel to five other works, *The Beasts of Electra Drive* will have readers seeking out Rohan Quine's other books in the series." —*SPR*

"Technologically intelligent, socially clever, and supernaturally chilling—a trippy sci-fi tale. [...] What really impressed me, however, is the flair for language, with some really beautiful—and beautifully chilling—passages that had me dog-earing pages along the way." —Sally Bend in *Bending the Bookshelf*

"This is a powerful book that advocates letting people be themselves, despite how far outside the bell curve of 'normal' they are. Pulsing with sexuality, the story will appeal to readers who enjoy artistic works rich in vocabulary, symbolism, and graphic imagery." —*The Book Review Directory*

ABOUT THE AUTHOR

Rohan Quine is an author of literary fiction with a touch of magical realism and a dusting of horror. He grew up in South London, spent a couple of years in L.A. and then a decade in New York, where he ran around excitably, saying a few well-chosen words in various feature films and TV shows, such as *Zoolander*, *Election*, *Oz*, *Third Watch*, *100 Centre Street*, *The Last Days of Disco*, *The Basketball Diaries*, *Spin City* and *Law & Order: Special Victims Unit* (see www.rohanquine.com/those-new-york-nineties/film-tv).

He's now living back in East London, as an Imagination Thief, with his boyfriend and a caramel-coloured rabbit. His six published titles push imagination and language towards their extremes, so as to celebrate the beauty, darkness and mirth of this predicament called life, where we seem to have been dropped without sufficient consultation ahead of time.
